WINTER 1962

MARY WASHINGTON COLLEGE of the UNIVERSITY OF VIRGINIA

## FAMILIAR SCENES HAVE CHANGED

"Goodness, how things have changed!" is the remark made by most every returning alumna, whether she graduated in '22 or '62. In fact persons employed right here on the campus are often unaware of an alteration, so complex and large has MWC become.

A visiting alumna would find, to mention a few recent innovations, some rearrangements in GW, redecorations at Seacobeck, exciting improvements at the library, new color in Virginia Hall, a Security office, an improved Day Students' room, a number of additional faculty offices, added lights on walks, new parking lots, and, probably before long, a number of stocked fallout shelters. But still no new physical education center.

The statue of George Washington now stands in the center of the GW foyer, and on the walls is the MWC permanent art collection. The auditorium gleams

with new paint, new curtains, and re-upholstered seats. The Hall of Mirrors is no more. Instead, our visitor would find only two of the mirrored columns remaining in what is now a reception area adjacent to the Office of Admissions. In other rooms formed from the Hall of Mirrors are the telephone exchange, the news bureau, the placement bureau, business offices and storage rooms.

When she goes to Seacobeck, she would note a beautifully redecorated Dome Room with a color scheme of oyster and rose, mirrors between the windows, a statue formerly in a niche in GW foyer, a gilded cabinet of antique dishes, two Gari Melchers paintings flanking the fireplace, the piano restained, and a new beige carpet. She wouldn't find the two Blue Rooms because they are now painted oyster with touches of lavender and pink. Under foot is a leaf-patterned green rug. Coffee

warmers have been added for sit-down meals.

In the library she will need a guide. A major addition is underway there and if the day is hot she will want to stay in the air-conditioned new section, where, on the first floor, are the reserved books, and, on the second floor, all the periodicals. She will see more carrels for studying, an elevator for the staff, a smoking area in the basement, and better lighting everywhere. In the rotunda she will examine the display cases and she will be served at a two-section service desk.

She will be glad for the new fire alarm system in Virginia Hall if she has a daughter living there. The walls in Virginia have been painted white and new bunk beds have been added to accommodate more students.

If she is looking for a day student and goes to what used to be the Day Students' room on the front corner of Anne

(Continued on next page)

Carter Lee, she will find the radio-equipped Security Office. This is the new name and headquarters of the six-man security guard, headed by Chief Medford Haynes. The day students have a room of their own that is not open to resident students. It has been decorated with new tables, chairs, (gone are the booths) couches, and draperies.

The relocation of many faculty offices will make her visits to her favorite professors something of a game of hide-and-seek. She may have parked her car on the new parking lot between Monroe and Willard, and if she is over near Framar or Westmoreland Circle at night, the new walk lights will make her way easier.

On this visit she won't see signs leading to stocked fallout shelters, but when she returns she might see them at Lee, Monroe, Willard, Virginia, Ball, Randolph, the Library, and the Infirmary. When a federal survey listed these eight buildings as eligible for federal stockpiling of shelter supplies, the college signed a shelter-licensing agreement. The buildings have a shelter capacity of 2,023 persons, more than enough to care for the 1,700 student body. It is quite possible that other college buildings not yet examined will meet shelter requirements if some alterations are made.

If she was a Phys. Ed. major she will be sorry to see no new physical education center. The dreamed of three-quarter-million-dollar center, to be named after the late C. O'Connor Goolrick, is still a dream. The \$50,000 earmarked for the drawing of plans for the center was deleted from the MWC budget by the House Appropriations Committee. Also eliminated was \$30,000 for an elevator in the infirmary. Left intact were funds for a new dormitory and equipment in the new addition to the library.

Chancellor Simpson, in a statement to the *Free Lance Star*, said that the visiting evaluation committee from the Southern Association of Colleges and Secondary Schools, who spent three days on the campus in May, strongly recommended the physical education center in order to release quarters in Anne Carter Lee for student activities. They also endorsed additional dormitories to eliminate crowding "on the assumption that we keep the enrollment the same."

Dr. Rachel Benton, head of the Health, Physical Education and Recreation Dept., told the same paper that state officials are apt to term the Anne Carter Lee ballroom a gym because it was designated a gymnasium on the original plans. Actually, the only gym on the campus is in the basement of Monroe and is dimly lit, and inadequate.

The drawing on the cover of this issue is the work of Miss Molly Coates '24, who is secretary to the Chancellor. She did not intend it for use as a guide to visiting alumnae, but we hope you will have fun in identifying some familiar landmarks.

"Goodness, how things have changed!"

## CAMPUS COLUMN

Chancellor and Mrs. Simpson have returned from a Mediterranean cruise aboard the Norwegian freighter *S. S. Concordia Sun*. The two-month trip included visits with friends in Italy in addition to visits at ports of call in Egypt, Turkey, Greece, Italy, Spain, Syria, Lebanon, and the Canary Islands.

Dr. James Dodd, retired economics professor, is teaching this year in Hong Kong under a U. S. State Department grant. Mrs. Dodd, of the psychology department, is taking a year's leave of absence to accompany him.

Dr. H. W. Hewetson has been named head of the economics department for three years. Co-chairmen of the psychology department for one year are Mrs. Mary Annette K. Kelly and Dr. J. Russell Nazzaro. Heading the physics department for a year is G. Preston Burns and the geology department for one year, Samuel T. Emory. The new policy of term, instead of life time appointments, is similar to the system in use at the UVa.

The twenty-three faculty newcomers this year include four in psychology, four in foreign languages, three in physical education, two in history, two in art, and one each in eight other departments.

Three former faculty members are now serving as deans at sister colleges in Virginia. Dean J. Kenneth Roach is at Richmond Professional Institute, Dean C. G. Gordon Moss is at Long-

wood, and Dean John P. Kirby is at Randolph-Macon Women's College.

Each student at MWC now has a signed and numbered "ID" card, sealed in laminated plastic. Requested by the students, the cards will aid in off-campus check-cashing, credit reference and proof of age when needed. Like a driver's license, it lists height, weight, color of eyes and hair, as well as birth date.

Twenty-one new courses are being offered this year in ten departments, making the total number of courses in all fields 265. Some of the new subjects are Primitive Art, Modern Japan, Atomic Physics, Oriental Theatre, Readings in Nietzsche, Vertebrate Paleontology, and an advanced mathematics course called Probabilities.

Mrs. Beverly R. Ripley has been appointed secretary of the news bureau at MWC to replace Reynold H. Brooks who retired in June as director of public relations.

A fully equipped psychology laboratory opened this year in Chandler Hall in what used to be a chemistry lab. The \$22,000 in new equipment allows classic experiments and theories of behavior to be demonstrated firsthand. Soundproof booths, built in a "U" shaped line in the center of the lab will use an adaptometer to demonstrate a classic experiment in vision.

The Placement Bureau report on the 1962 graduates shows that nearly 42% are teaching. Their average salary is \$4,421. Of the 257 graduates, there were 123 certified to teach and of this number 105 are actually teaching.

At the time of the report 20 were housewives and 22 were in graduate work. There were 25 secretaries and seven were traveling in Europe and the U. S. Ten were in research and laboratory work, seven were mathematicians, four listed social work, and one is a clothing designer.

Seven are in retail training, four are dietetic interns, and one is a nutrition coordinator. Six are in life insurance, three in personnel work, four in advertising, public relations, and radio-TV. Three are recreation workers.

Of the 105 teachers, 33 are in the kindergarten and elementary schools and 69 in high schools.

## Alumnae Revive Devil-Goat Rivalry of Student Days

*In the 1962-63 Alumnae Fund Drive, the odd and even year alumnae are continuing the traditional Freshman-Sophomore rivalry by taking part in a Devil-Goat contest. Odd-year Devils and even-year Goats are racing toward the goal of 100% participation in annual giving. Each group hopes to have the highest percent of participation by the end of the drive, April 15, 1962. Two prominent contestants offer these messages:*

Dear Alumnae:

I learned from a Freshman at MWC the other day that this year in the Devil-Goat contest on campus the Devils were the winners. As a penalty, the Freshmen Goats were required to wear their beanies two extra days.

In the alumnae Devil-Goat contest the Devils were ahead by the first of December, both in percentage of contributors and in the amount given. Devils who have not participated will surely want to enter the race since we were only ahead by nine-tenths of 1%!

If you can give \$25 you will receive an antiqued silver Devil pin. But send any amount to show your interest and to help the Devils keep the lead. Mary Elizabeth Hatcher, '61 Agent, says, with me, that the Devils CAN reach 100%. Yea, Devils!

*Irene Lundy Brown, '39 DEVIL*  
1st Vice Chairman and Chairman  
of Alumnae Fund Committee

Dear Alumnae:

This has been a big year for our alumnae association and the early responses to annual giving have been encouraging and rewarding for all of us. It would be so wonderful if ALL of our alumnae would participate in this first Alumnae Fund Drive. A gift from each of you, in no matter what amount, will mean a great deal to the association, to the college, and to you as a giver.

This has been an exciting year for me and my experiences in this position have been rich and meaningful. I've been watching the Devil-Goat contest with interest and it would give me a boost personally to see the Goats catch the Devils. Let's all get in the race and show the Devils there are just as many of us Goats who want to participate!

President of the Association

## ALUMNAE COUNCIL MEETS AT SPOTSWOOD

The Alumnae Council held its first meeting on October 27 at Spotswood Alumnae House under the guidance of Kathleen Goodloe, Alumnae Council Committee Chairman. The group, made up of representatives from six of the 14 chapter, met first in a general session, then formed into small discussion groups, and later in the day reconvened to hear group reports and elect Council officers.

The following chapters were represented: Baltimore, Fredericksburg, Maryland-Suburban, Northern Virginia, Peninsula, and Richmond.

During the opening general session the purpose of the Council was defined. An advisory body, it will serve as a forum for a wide range of subjects; it will make recommendations to the Board of Directors; it will coordinate chapter activities and will make every effort to lead chapters in work appropriate to the best interests of the college; it will have a direct voice in the governing of the association since its elected representative to the Board is a voting member of the Board.

Discussion group topics: What do you want this Council to do? Can a uniform project be conducted by several chap-

ters? How can chapter programs and interarea meetings meet your needs and interests? How can chapter by-laws be revised to conform with those of the Association?

At the afternoon general session group reports to the Council included the following suggestions: a spring rather than fall Council meeting so that suggestions presented to the June Board meeting will be current and chapters will have help early in the year; that Council form subcommittees to carry out its work; that uniform projects can be conducted by several chapters; that money raising projects should be de-emphasized and cultural, social, and college related programs be emphasized instead; that small groups of special interests be developed within the chapters; that officers of chapters hold interarea meetings when practical; that chapters exchange information and talent; that the Senior Class be honored by the chapters on the 100th day before graduation (Feb. 22) by a chapter sponsored event at Spotswood; that a committee be formed to assist in organizing new chapters and that old ones be rezoned when necessary; that an attempt be made to find more time for reunions at Homecoming.

The group considering chapter by-laws prepared a model that chapters might find useful in amending their by-

laws to conform with the association's.

The final business of the day consisted of the election by those present of a Council president, a secretary and Council representative to the Board.

President is *Nancy Ball McCaughey* '60, a resident and native of Baltimore. She attended Virginia Intermont College before coming to MWC. An English major, she teaches at Kenwood H. S. and is president of the Baltimore Chapter. She is married to John W. McCaughey, a Georgia Tech graduate.

*Anne McCaskill Libis*, agent for the Class of '49 and organizer and former officer of the Baltimore Chapter, was elected Council representative to the Board of Directors. A sociology major at MWC with graduate study in social work, she married a fellow social worker, Claude F. Libis. They and their two children live in Baltimore.

*Louise Magette* '58, a science teacher from Hampton and a member of the Peninsula Chapter was selected as secretary of the Council.

## FACULTY ADVISOR APPOINTED

MRS. MILDRED CATES JAMISON

The executive committee, at a recent meeting, named Mrs. Mildred Cates Jamison faculty advisor to the Alumnae Association for the year 1962-63. As faculty advisor Mrs. Jamison, who is assistant professor of Home Economics, is also a member of the Board of Directors and the executive committee.

A native of Hampton, Tenn., she came to MWC in 1952 from the University of Tennessee where she received an MS degree in Home Economics and was a graduate assistant. Specializing in textiles and clothing, she holds a B.S. from East Tennessee State College and has done graduate study in Europe.

In June 1960 she married Samuel W. Jamison, an operations and procedures analyst for the Virginia Employment Commission. They live at 1321 Brent St., Fredericksburg.

Mrs. Jamison is a member of the Public Occasions Committee at MWC.

The "annual givers" whose names appear on this page have sent, in addition to money, many wonderful messages and reams of news. It distresses us that we cannot print all of them but space won't permit it. You can be sure that each item is saved and as soon as we can increase the size of the *News* we will pass along their news.

From Nan Stockman came the following: "Carmen Weiler, founder and long time Director of the Northern Va. Chapter is now in Rio de Janeiro. Prior to her departure we had planned a farewell luncheon but her departure was advanced and new plans were made. Since this is the first year of annual giving and since Carmen's love for MWC is preceded only by that for her family, we decided as a chapter to make a contribution in her name. Thus the enclosed check in the amount of \$25.00. Carmen is a Goat and we would appreciate your sending her a Goat pin."

From Doris Steele came this message: "The Maryland-Suburban Chapter... with the assistance of the Northern Va. and Alexandria Chapters... presented "A Lecture with Slides on Blair House, Tryon Palace, and the duPont Winterthur Museum" by Camilla Moody Payne... Proceeds from this lecture amounted to \$113.66. Our check for this amount is enclosed as a donation (from the 3 chapters) to the Alumnae Fund."

Our thanks go to Debby Klein for doing the Devil-Goat art work for us in the Fund mailing. Debby, the wife of Dr. Albert Klein, was former executive secretary in the alumnae office.

Watch for your copy of the spring issue of the *News*. We plan to include in it the Homecoming program and reservation cards, the election information and the ballots.

# Class Notes

**'13 Belle Pearce Beverly**  
4906 Dollard Dr., Richmond 30

To the Class of 1913: We are planning to celebrate our 50th anniversary this year. Plan now to come! Don't fail me. Any suggestions? There were 32 of us in 1913. Please write and tell me where you are, how you are, and what you have been doing.

Girls of 1913, how much family have you? Shall we give a prize at our reunion next June for the classmate with the most grandchildren? I bet I'll be in the running.

Already two have asked me *not* to call or write their names because no one must think they are so old. I shall respect their wishes. But you who can, please plan now to meet me in Fredsbg. to celebrate.

It is with real regret that I report the news that *Ethel Louise Taylor* has departed this life on March 28, 1962, in Newport News, after three years illness. She received an A.B. degree from William and Mary and an M.A. from Columbia. At the time of her retirement in 1958 she was director of instruction in Newport News. She was devoted to her church and had the respect and love of the whole community.

Our classmate *Clara Morgan Coggin* entered into eternal life Feb. 12, 1962. We will never forget her charm and wit. Clara was a kind, joyful girl and enjoyed every day because she shared. She married Rodney Coggin, who preceded her in passing. Their home was in or near Warsaw, Va. To Clara's family we extend sincerest sympathy.

Come to see me girls and write to the address listed above or call me at Elgin 8-7816. (Mrs. Walter F. Beverly) *Belle*

**'15 Ruth Carter Vellines**  
4908 Dollard Dr., Richmond 30

Dear "1915ers": Had a chat on the phone today with *Ettienne Broadus Moore*, who gave me some news. She keeps in touch with many of our class. *Beulah Detwiler* Anderson went to New Mexico until December to visit her son who moved there from Ankara, Turkey.

Ettienne often sees *Mary* and *Maxie Acree*. Mary has retired from teaching and Maxie plans to retire soon. In the summer *Elsie Wood Rice* and I enjoyed lunch with Ettienne at her home. We had lots of fun. That same day Elsie went with Ettienne and Mac for two nights at "Snugly", their summer home in Essex Co.

That same day Ettienne had letters from *Josephine Jerrell White* and the "Tyner's." Mr. and Mrs. Bunyan Y. Tyner's address is 34 Sheppard St., Raleigh, N. C. Mr. Tyner, retired from his position at Meredith College, supervises the farm at his old home near Lumberton, N. C. Mrs. Tyner is busy with clubs and church work. They have many nieces and nephews to claim their interest.

This summer *Elsie Rice* had a visit in Lynchburg to see her son and great grandson. Am glad to hear that Elsie is having no further knee trouble. She is now visiting in Springfield, Va. with a cousin and friends.

Many of you will be interested in news of *Ruth Lord Bouslough '13*, who lives in Aurora, Ill. She especially enjoyed the *Alumnae News*. She has one daughter and three granddaughters. Recently I visited *Belle Pearce Beverly '13*, who lives on my block. She is interested in church and the U.D.C.

Ettienne and her husband visited in Arlington, the Skyline Estates near Front Royal. On the way home they stopped in Fbg. for a visit with Elsie.

News from *Sarah Gouldman McAllister*, who does not feel equal to class reunions as her walking is limited. She has fifteen grandchildren—has beat me by one.

I liked the pictures in the last issue of the *Alumnae News*! The Class of 1916 looked very familiar. This summer I was on several enjoyable day trips to the Virginia Baptist Home at Culpeper, Staunton, and Old Point Comfort. Don't mean to be bragging, but my two afghans exhibited at the State Fair won first and second prizes.

Will you write, girls? Love,

*Ruth*

**'19 Fannie Jenkins Donaldson**  
Morattico

*Louise Campbell Bass* and husband, Mr. Carroll Bass, are building a summer home on the Rappahannock at Monaskon. They are now retired and will spend their summers on the river.

When Mr. and Mrs. Roger recently visited Mr. and Mrs. Rufus Hoffman (*Ida Blankenbaker*) in their home at Arlington, they found Ida very much handicapped with a broken wrist.

*Grace Mason Snuggs* is living in Anderson, S. C. where Mr. Snuggs has joined the faculty of Anderson College as head of the biology dept. In S. C., in 1924, Grace, a daughter of a Baptist minister from Natural Bridge, Va., met, married, and moved to China with Harold H. Snuggs, a Baptist missionary.

After working in South China missions, schools, and hospitals, they joined the teaching staff of the U. of Shanghai in 1939 only to be separated in 1940 due to the war. Grace and children (2 boys and a girl) returned to the US, but her husband was held prisoner of war for two years.

After his exchange and return, Mr. Snuggs, in 1944, enlisted in the marines and was sent to North China. As interpreter, he was present at the time of the Japanese surrender, and he assisted in the translation of the articles of surrender.

The family returned in 1947 to Shanghai only to be forced to leave because of the Communists. In 1951, Mr. Snuggs, this time with the Navy, went to Formosa for five years.

At Anderson since July, 1962, their home is marked with an Oriental atmosphere due to its furnishings, the conversations, and "Missy," their Siamese cat.

**'37 Eleanor Lee Sutton Heath**, 208 Country Club Dr., New Bern, N. C.

I haven't had time to acknowledge all of the letters and questionnaires I received before Homecoming. Out of 150 questionnaires 38 have returned. Many, many thanks for sharing your joys and sorrows with us. Hope you girls will accept this news as my thank you and grateful appreciation for your cooperation.

When *Mickey Warrick* and I can find time and can coordinate our thoughts, we hope to put all of the wonderful and interesting information we receive from you girls in a "Class of '37 Memory Book."

Those of us at Homecoming enjoyed the resumes you sent and we had loads of fun comparing notes and looking at pictures. It will be impossible to give all of the news at one time, so I shall write a few at a time in alphabetical order. Do hope others will come in before the next *Alumnae News*.

*Betty Abbey Cline* and her building contractor husband, Bernard, have restored an old house ("Ellerslie") 6 miles from Fbg. They raise Aberdeen-Angus cattle on their 443 acre farm and have four children, ages 10 to 17. Betty (active in Jr. Women and Red Cross) spent the summer of '37 in England with her parents and sister.

*Jane Aldrich Graube*, husband, Carl, and three children live in Spotsylvania. She teaches 11th grade English at Spotsylvania H.S. and is still organist at Fbg. Baptist Church where she became organist while a student at MW.

How I wish all of you could read *Mary Charlotte Chapman Mitchell's* letter! She and Herbie are most active in their church. Their daughter wants to be a missionary to Korea; a son in college hopes to follow in the footsteps of his mathematician father. The whole family had fabulous trips around the world in 1958 and in 1960. In October of 1960 they were fortunate in being in Seoul on World Wide Communion Sunday.

*Dorothy Chittum Delmar* and *Dorothea Chenault Covington*, both of Richmond, are cafeteria managers in Richmond schools. Dorothy—a year's internship at the MCVa in dietetics, member of the American Dietetic Assoc., son a sophomore at Georgia Tech. Dorothea—busy with home, church, school, and two sons and a daughter. ginia in 1964. Our congratulations, Louise! *Zella Cornwell*, Manassas, 1st grade teacher in Prince William Co. for the last eleven years. She and Eleanor (Billie) Barnett had a reunion last summer and had great fun talking over days at MW.

Although usually in Virginia, she is sometimes sent on special assignments to Texas, Ala., Ark., Ky. and Miss.

*Margaret (Peggy) K. Doane* in the Civilian Personnel office at Langley Air Force Base lives in Phoebus.

*Catherine Dryden Hock* of D. C. is in "space." Joined the Office of Manned Space Flight, NASA, when it was formed on November 1, 1961. The previous year and a half was with NASA's Office of Reliability. Present duties as Aerospace Engineer in the Office of Design Practices and Reliability are concerned primarily with developing adequate reliability programs for NASA's Manned Space Systems.

Catherine was employed as a statistician and later as an industrial engineer in the Inspection Branch of the Ammunition Division, Army Office Chief of Ordinance during World War II. For a time she taught mathematics and general science at Gorden Jr. H.S. in D. C. Graduate work at Catholic U., American U., and GWU, all in Washington. Chairman of the Washington Section of the American Society for Quality Control; member of the American Rocket Society, and the American Statistical Assoc.

*Christine Dutton Harper* and *Richard* married in 1945. During World War II Richard served his five army years in the E.T.O. of the Revenue for Gloucester Co. and lucky Christine worked in the office with him. Their one son continues the family tradition of winning scholastic honors and medals.

The church, Woman's Club, D.A.R. Kings Daughters and Sons, American Legion Auxiliary, and P.T.A. occupy Christine's time. How we enjoyed the picture she sent for Homecoming. It was taken at MW in 1933. Who? Christine, Lucille Foster, Edna Weaver, and Dora Foster.

Well, my dears, this is all I have through the "D's." Will begin the next issue with the "E's." Do hope I'll hear from others. Any help you might be able to give with addresses will be greatly appreciated. Some of "our girls" are still among the "missing." Come to New Bern!!

Dear 42'ers,

May I apologize for no news in the last bulletin? Being new on the job the deadline escaped me but it won't happen again.

We had a goodly gathering at the reunion and had a delightful time. My present project is to get as many of you as possible back to MWC for our 25th in '67. To do this I must know where you are.

The class directory which *Eloise Strader* wrote about is our aim for the 25th reunion. We hope to make it just as complete and interesting as we can but we need your help.

Where are you and what are you doing? Won't you please write to me now so that we may have a nice and newsy bit in the next bulletin?

I'll be watching the mails.

**'45** *Phyllis Pemberton Perkins*, Box 6, Guilford, Maine

*June Minnerly Borden*, R.D. No. 1, Fishkill, N. Y.

Dear 45'ers:

Surprise! News! *June Minnerly Borden* kindly offered help in getting some class news in print. She and husband *Leon* have seven youngsters in Fishkill, N. Y. and she has resumed her music, playing piano for ballet classes, staging public ballet productions, playing flute in the local symphony, singing in the church choir and serving as chairman of the music committee!

This news is an issue late because *Al* and *I* made a flying trip this summer to France, Italy, and Switzerland. Our 3 sons visited grandparents in Richmond.

*Frances Barnhart Ryder* paid us a surprise visit in August. She and her 3 children are living in Stone Ridge, N.Y. where she teaches 5th grade. We visited over-night last year with *Kathleen Harrison Kelly* and her family in Abingdon, Va. Husband *Jim* is a busy veterinarian.

*Ruth Zirkle Merola*, teaching in Brooklyn; a daughter at Middlebury College. *Betty Kilmer Walker*, married to a hotelman in Hampton; a new baby last spring. *Anne Clark Jones*—teaching in Richmond. *Gloria Post Goodsell*, in Tyler, Texas, with *Rog* and 2 sons, teaches Latin.

Don't you want to know more about our scattered classmates? Please send news of yourselves and others to June or me.

\*\*\*

**'47** *Ruth Meyer Butler*, 1606 Larkspur Dr., Arlington, Tex.

*Betty Hutchinson Gwathmey*, "The Vineyard," Bruington, Va.

At Homecoming I was asked to be co-agent with *Ruth Myer Butler* for our class and how I've enjoyed the extra contact with classmates. My old annuals have been wonderful reference material for connecting names and faces.

There were only a few present for our 15th reunion but we all enjoyed renewing acquaintances. It was amazing how quickly the fifteen years closed in, and we were talking as if we had been together only a few days earlier.

One big topic was how to get a much larger number together for our twentieth reunion. In preparation, our alumnae office needs up-to-date addresses and names. Please send Ruth or me your current address and a bit of news—we will forward it to the *Alumnae News*. Five years seems far off but let's begin talking and planning now to make it a true "Class of '47 Production."

*Emily Stoecker Ballway*, husband and six little ones live in Dewitt, N. J. Emily and her sister left all to attend homecoming. *Irene Taylor Robinson*, Arlington, still is busy with her music in the school there. *Liz Krebs* teaches music in Arlington also.

*Annie Patterson Gardner* and husband adopted a little girl and Annie and I will

tell any in question that this is a choice way of getting a family. We have two adopted daughters. *Florence Mason* flew down from Genecio, N.Y. for homecoming. In college work for some years, she planned to assume a position in the mid-west last fall.

*Doris Lippold Burns* is in Silver Spring; *Carolyn Johnson* Lingenfelter and *Joyce Johnson*, Hampton. *Alice Griesar Browning*, Fbg., and myself were among those above at the get-together.

*Anna White Jones* fell at her home in Burlington, Iowa, last December and broke her leg. When I heard from her in June she was still wearing a cast. *Pam Richardson* Markwood and family are living in Italy. *Donna Littman Simms* and family returned to the US in December '61 after four years in Ethiopia. Their next assignment is Thailand.

Met *Carey Harding*, Lilian, Va. on the street in Richmond. *Jean B. Wood Brown* lives in Culpeper; *Margaret Jarvis* Bogatoy, Nutley, N. J.; *Mary Hines* is in her home town of Suffolk. The last I heard from *Margaret 'Meg' Bliven* Scott, Bob was stationed in Florida (Navy) but expected to move to New England. *Dot Martin* Putney is in Saluda, Va.

*Ruth Myer Butler* teaches school and in her spare time is active in politics. She plans to retire in a few years to go into politics with a vengeance. Her husband is a prof at Arlington State College. *Ellie Hunter* Adams, East Woodstock, Conn. is the wife of a dentist and a busy civic worker.

From Richmond, Va., the twins, *Christine Wilkins* Grubb and *Clarine Wilkins* Reekes, and their children spent a day with us this summer. A letter from *Gay Levi* Scannell, Lowell, Mass. brings news that she and *Phyllis Horton* Kent enjoyed a visit with *Evelyn 'Pete' McGrath* Fitz-Gibbon in Holyoke recently. *Phyllis* and husband, Col. Glenn A. Kent, are now in D. C. Gay hears from *Barbara Rudd* Blum whose husband is teaching at N. C. State in Raleigh.

*Jane McCrum* Snyder and *Riley*, Billings, Montana, made a trip east recently. Jane is in contact with many class members though many miles from MWC.

We are scattered far and wide; we are busy doing many things; we are enjoying life and contributing to it. Let us share more of our experiences.

**48** *Adrienne Murray* Dyett, 59 Prince St., West Newton 65, Mass.

*Adrienne Murray* Dyette offered to take over the class agent's job so I am resigning and leaving you in good hands. My husband just received his M.A. at Ohio State and it was such a rough year we are going to try to relax and spend as much time as we can with our three boys. We are in Ashville where my husband is head of the Science Dept. at the Consolidated H.S.

*Elva Welday* Newdome graduated from Ohio Wesleyan in '49, has two children, teaches violin, and is rearing a niece. Elva hears from *Ruth Sargent* Campbell and *Barbara Henderson* Vassar so we hope to have news of them soon.

I was sorry to hear that *Emily Taylor Jones* had lost one of her little girls and also her mother. Millie is a school guidance counselor. Her husband runs a furniture and appliance store in Cedar Bluffs. They play golf together and, I imagine, use the pool that they got with their new ranch house.

Millie asked about *Mary Ann Miller*. When last heard of she was in France. *Emily Lynch* Fairchild, 3rd baby, 2nd boy, on March 31, 1962.

As Millie said, "There is a definite bond that we are bound to feel from those days spent at MWC." I have loved hearing from some of my classmates. Now write that postcard or letter to Adrienne and help her keep up on all of us.

*Marian Messersmith Snider*

**49** *Anne McCaskill* Libis, 9410 Flagstone Dr., Baltimore 34, Md.

*Dot Repko* Hoffman wrote from Calif. that she is busy with an 18-month-old daughter, house and yard; loves the climate and is proud of the "Giants." Her vacation was spent in Montana and Glacier National Park.

*Elinor Platt* Levy is enjoying a large old house in a N. J. community with many lakes, after moving from close quarters in NYC. She says *Martha Coleman* has returned to Florida and *Ann Hozier*, still in Calif., has her doctorate.

Baby: to *Peggy Elliott* Sweeney and Mickey, a girl, Sept. 19.

Can anyone help locate *Elizabeth Barnes* Hornsby and *Shirley Lou* Beechwood?

**50** *Dorothy Held* Gawley, 177 McCosh Road, Upper Montclair, New Jersey

How nice it was to receive so many interesting letters during the summer and from such distant places, too!

*Patti Head* Ferguson is in Bangkok where Glenn is the Director of the Peace Corps for Thailand with over 100 volunteers participating. There since Dec., '61, they are all studying Thai. Even their six-year-old daughter is studying Thai classical dance. They managed trips to Malaya and Cambodia in spite of very little free time!

From Monterey, Calif., came a letter from *Nell Grieve* Swanson. "Swanee" is attending U. S. Naval Post Graduate School there. Nell says she has moved eight times in eight years, but they like Monterey so much that they have bought a lot there. In June, '61, a daughter joined their family of two sons.

Claremont, Calif., is now the home of *D. G. Pate* Wilson, Bruce, and their four children. D. G., busy getting her Master's, has been teaching at Mt. San Antonio College for two years. Bruce is studying Hindu as they all leave for India, Aug., '63, where he will teach. D. G. would like to work toward her Ph.D.

*Rachel Nickey* Morganthaler and family enjoyed their Pennsylvania farm this summer. She is active in the Baltimore Alumnae Chapter and is a PTA board member.

BABIES: A boy to *Connie Froehler* Sinozich in May. A girl to *Barbara Huber* Bohmann in June.

Keep writing as we all enjoy reading scraps of information about our friends.

Regards, *Dottie*

*Bootsie* and I always appreciate cards and letters and we welcome news and suggestions for this column. It's not too early to consider our 10th reunion. Wow! There's just no other word for the response I've been getting to my newsletters. God Bless each and every one of you for returning them so promptly. I have so much news this will probably take a couple of bulletins to complete. I'm going to write the "notes" more or less as they have come to me—so that everyone who sent back a form will be mentioned in this or a subsequent bulletin.

Please note my new address and drop a note, you lazy gals. What a summer! Went up to the World's Fair in July, planning to stay only a couple days, but visited friends for 2 weeks.

I located *Ann Mitchell Lewis* and Bob, who was working on his Ph.D. in geography at the U of Washington and teaching classes there. 2 girls, aged 2 and 6 mo. Ann is still singing; had the lead several times in local operettas. They moved to San Diego in August as Bob accepted a position in the geography dept. at San Diego State.

Had dinner with *Jean Thurman Baker* and Jac, who live in a lovely home in Bellevue, just across Lake Washington from Seattle with a boy 3, and a girl, 1. Had more fun going with them on the lake in their boat.

Took a trip to Canada with a friend, visited other old friends, and met lots of great people. I even ran into the girls' vice-principal from Hammond H.S. in Alexandria, Va., where I taught my 1st year (centuries ago). Later, I stopped in Oregon to visit some non-MWC friends. It was a lovely trip, and I might add, I did enjoy the Fair.

Back home only a week, I took a two-week Phys. Ed. Workshop at Cal. State Polytechnic College, learned lots, and had a grand time. Returning from San Luis Obispo, I went with four friends to our family cabin in the Shasta Nat'l Forest (the primitive area of the Trinity Alps). We have to hike 4 miles before reaching the cabin. If I had only sent *Barbara Clark Fowler* and Merle more complete directions they wouldn't have spent 7 hours looking for the cabin! Barbara and Merle teach at the same school in El Cajon. They live in Santee, which is near San Diego.

Returned to San Francisco to welcome *Mary Gale Buchanan Hockenbury* and Dick. We toured the spots until the wee hours and then climaxed their 3-day visit with a big party at the house the last day in August.

Labor Day weekend a group of us went to San Diego and Tijuana for the bullfights. Saw Mary Gale and Hock again down there and also had a quick reunion on the beach with *Judi Smith Hermanson*, *Corky Slater Gray*, *Barbara Clark Fowler*, and M.G. Neither *Ann Mitchell Lewis* nor *Beverlee Marion Schoekert*, who is back here from Hawaii, were able to join us. Where are you, Bev?

Corky and Dick went to Detroit this past summer. On their return they visited *Mike Foley McDaniel* and her family of 3 boys in Scottsdale, Ariz.

I spent 3 days with friends in LaJolla and returned to Palo Alto the night before teachers meetings began. Now, I've hogged enough space and besides that winds up the summer. I'm now back in teaching routine.

At the Monterey Jazz Festival in Sept. I stayed with *Nancy Hanna Stone* and Perry, who is taking engineering at the Navy Post Graduate School. Their little boy is adorable.

*Joan Fletemeyer Moyer* and Bill arrived in Manila last March. After a stay at the Manila Hotel they found a house in San Lorenzo Village. Bill is with Esso Standard Eastern, and Joan intended to teach 3rd grade in the American School. The school year begins in June due to extreme heat in April and May—vacation months. I wish I could relate all of her experiences in the Philippines, but suffice it to say that I think she is really enjoying living there. I'm sure she will be a good representative of the US.

Long lost *Connie Crigler* is found! She left England last March, visited NYC, picked up her new VW, then on to Indiana, then down to Jamaica for 17 days visiting friends in Oracabessa and Ocho Rios, a few days in Miami, and then about June 1 she began to work in DC. She is in public relations and real estate and really enjoying it. Welcome back, Connie!

*Fran Powers Terry*, husband Jim, and two children visited *Dean Murphy Gilmore* in Va. Beach last summer. *Sallie Hairston Johnston* and Dick visited San Francisco early last summer. We had a fine time in the City one evening. Next day Sallie and I visited Chinatown and did some shopping. Their stay was too short. Come again, Sallie and Dick!

The Class of '58 had no news in the last issue because of our laziness—mine in not writing what I had and yours in not sending me more. Sorry.

It was good to hear from *Barbara Shann* Greenleaf from Bloomfield, Conn., where she is teaching 2nd grade. *Beth McCarthy* Crowley and *Dill Bramhall* Hodges live near her. Beth had a second son in July. Dill has two children.

Other news from Barbara: *Beth Beckler* works in San Francisco for B.B.D. & O.; *Cinnie Niesley*, married in March; *Nancy Kleinknecht* Smith, Fairfield, Conn. has two boys; *Cynthia Hapke* Biagiotti, a second child in July; *Sandra Sheesley* Burnaman, a second child in Sept.; and *Judy Townsend* Gatlin teaches at a small college in N. C. Thanks Barbara, this was a help.

*Fran Karins* Updike is in N. J. where husband is a resident in pediatrics at Philadelphia Children's Hospital. One little girl.

*Pat Harmon* married Bob Eckwall in May, lives in N. J., and works for Strawbridge and Clothier. Has anyone heard from *Izzi Gill* Shillinglaw? Several people have asked about her.

Our Freshman Class President, *Gib Hurley* Krauser is in Highland Park, Ill. *Jerry Sample* Somers, who left MWC after sophomore year, lives at Camp Le Jeune. I saw *Jackie Jones* Hunter and family this past summer in Charlotte, N. C.

*Kay Martin* Britto made a welcome contribution to this issue. She, Nelson, and their two children live in Arlington; husband works for I.B.M.

When Kay last heard from *Cynthia West*, she was working in Baltimore. *Anne DePorry* McGrath and husband, both with degrees in Library Science, are in Middleburg, according to Kay.

A note from *Carolyn Hickman* Bowman from Iwakuni, Japan. She says she is struggling through a Japanese language course while her husband is stationed there with the Navy.

*Martha Moore* Wilson wrote (many months ago I regret to say) that her husband, Ralph, works for DuPont in Richmond.

Did you know that *Ebie Breeden* is now Mrs. Richard L. McKnight? In his last year of Law School at the U. of Oklahoma, they plan to remain in Oklahoma.

Our erstwhile Class Agent, *Sue Blythe*, is also our world traveler. She is teaching in France, just outside of Paris.

Almost everyone I have heard from and talked with is planning to attend our 5th reunion next June. Why don't all of us try to make it back to MWC for Alumnae Weekend? Keep it in mind.

Let me hear from all of you, and I will try to do a better job.

Some of this news came just after the summer deadline. But it is still news.

Three roommates are Travers Moncure, working for an advertising agency; Nancy Seward, a publicity director for children's books; and Sondra Kates, a commercial model. Look for Sondra in the "Zest" commercials. Before going to Moscow in June she made a movie with Gary Crosby and Joey Dee.

Peggy Hobart sent news about many MWC graduates. The most exciting bit was her engagement to Lt. Davis Mailler. They planned to be married November 17th. Peggy spent many months commuting between NJ and Quantico. Her matron of honor will be Judy Ferguson Payne. Barbara Sutton Parker and Wolfie Maddrey will be two of the bridesmaids.

Judy transferred to UNC at the end of our Sophomore year. Barbara lives in West Point, Va. with husband Bruce, and their son. Peggy has seen Rebecca Ward Schmidt several times at Quantico. Becky teaches 4th graders in Prince William Co.

Also seen around Quantico was Gretchen Louft, who is teaching art in the D. C. area. She lives with Jane Walshe who is a Claims Examiner for the Social Security Adm. Peggy attended Kitty Berner's wedding to Lt. Louis Erb on Sept. 8. Kitty's letters from Beaufort, S. C. sound very happy.

Marilyn Atkinson spent the summer living and working in Piedmont in the Oakland-San Francisco area and should now be in Southern Calif. teaching school... Thank you Peggy for your newsy letter. Please keep them coming.

Many, many MWC grads are working at the Library of Congress. Among them are Jan Eppard, Judy White, Mary Ann Sills, Sonny Thompson, and Pat Harper. I hear these girls have really impressed the library personnel with their diligence and hard work. Jan, Tina McElroy, Judy White, Barbara Irving, and Mary Robin White live in the River Towers in Alexandria, an apt. straight out of a Doris Day-Rock Hudson movie. Very plush. *Linda*
